

FOR IMMEDIATE RELEASE

MWC Reaffirms PCI Credit Card Compliance

In the technology and data world that we live in, customer confidentiality and mitigation to risk is important. Customers of Metro Wire and Cable (MWC) have long known that their data is important and kept confidential and recently, MWC recertified their Payment Card Industry Data Security Standard (PCI DSS) distinction for 2016-2017 for all locations and merchant transactions.

"We keep all of our financial information secure, including our customers," stated Laura Alfano, Corporate Controller. "We treat your data like it is our own, and all of our employees know the significance of this."

What credit card paying customers should expect from MWC is an employee asking at the time of order for key information such as credit card numbers and billing address data to process the order. Upon completion of the order, the information initially stored will be destroyed and will need to be requested again for future orders. Accepting payments from Visa, MasterCard, American Express and Discover, Metro Wire can process your transactions quickly to ensure on-time delivery of the correct material you need to complete your project.

With locations in Michigan, Georgia, and Iowa, MWC specializes in working alongside public utilities, electrical contractors, wind-farm developers, commercial and industrial HVAC industries, traffic signal and airport lighting contractors, Original Equipment Manufacturers (OEM's) and the security industry. Metro Wire & Cable provides value added handling, warehousing, supply chain, and delivery services of wire and cable products for this broad spectrum of markets.

About Metro Wire & Cable

Metro Wire & Cable, one of the Nation's top two-hundred electrical distributors, provides warehousing, supply chain, and delivery services of wire and cable products for a broad spectrum of markets. These markets include public utilities, electrical contractors, wind farm developers, commercial and industrial HVAC industries, traffic signal and airport lighting contractors, Original Equipment Manufacturers (OEM's) and the security industry. Metro Wire, founded in Detroit, Michigan in 1976, established its Southeast Regional Distribution Center in Atlanta, Georgia in 1981, and it's Midwest Regional Distribution Center in Iowa City, Iowa in 2008. The company, now headquartered in Sterling Heights, Michigan, maintains extensive inventories tailored specifically to customer requirements at each location.
